

## **Ban on bringing weapons, ammunition and comparable objects as well as chemicals into schools**

(RdErl. of the MK of 06.08.2014 - 36.3-81704/03)

1. It is prohibited to bring weapons as defined by the Weapons Act (WaffG) as amended into the school, onto the school grounds or to school events or to carry them with you. This includes the objects designated as prohibited in the Weapons Act (in particular butterfly knives, fist knives, switchblades, drop knives, steel rods, deadly clubs, brass knuckles, etc.) as well as objects for which carrying is prohibited under the Weapons Act (one-handed knives and fixed knives with a blade length of more than 12 cm, etc.) and firearms.
2. The ban also extends to equivalent objects (e.g. alarm guns, irritant and signalling weapons), gas sprayers, cutting and thrusting weapons and weapon-like objects such as butcher's knives, kitchen knives or pocket knives, pepper sprays and laser pointers.
3. Also prohibited are weapons with which handling is wholly or partially exempt from the authorisation requirement or from a ban or which are wholly or partially exempt from the scope of application of the WaffG (e.g. toy weapons or soft air weapons with a bullet energy limit of up to 0.5 joules). It is also prohibited to bring or carry replicas of weapons that could be mistaken for weapons within the meaning of the WaffG due to their external appearance.
4. The ban also applies to adult students who either have a license to carry weapons (gun license and small weapon license) or are allowed to purchase weapons without a license.
5. It is also prohibited to bring or carry ammunition of any kind, fireworks, black powder and chemicals that are suitable for use in explosive compounds.
6. The school management can allow exceptions in individual cases, e.g. for sports or theater events, in home economics lessons or during school events with food sales.
7. All students must be informed about the contents of this RdErl at the beginning of each school year. Particular attention must be paid to the specific age-related risks. It should be noted that a violation of the ban on bringing weapons, etc. can result in an educational or regulatory measure.
8. A copy of this RdErl. must be given to the legal guardian upon admission to a school (usually the first and fifth school year as well as when entering vocational schools).
